

VR3 CHEST PRESS TOTAL ACCESS

FEATURES

Locking plunger adjustment on swing away seat allows easy access for wheelchair users and on-handed seat adjustment for users with limited mobility.

Adjustable input arm enables a non-stressed start position for users with limited shoulder flexibility and wheelchair users.

Upright seat back support (10°) allows wheelchair users to maintain stability with heavier weights.

Weight stack with low start weight and integral three-position twist select systems offering 2.5 kg increments is suitable for inexperienced and older users.

Top mounted exercise pivot position ensures correct biomechanical chest press movement from the hinged lever arm pivoting at the top.

Choice of upper and lower handle positions caters for wheelchair users, shorter users, and those with reduced balance.
