

VR3 ROW/REAR DELT TOTAL ACCESS

FEATURES

Choice of upper and lower handle positions caters to wheelchair users who cannot adjust seat height, shorter users and those with reduced balance, who can then maintain full foot contact with the floor.

Eight position reversible chest pad ensures a full range of movement is achieved by both tall and short users.

Large seat base offers more stability and confidence for older users as well as those with reduced trunk stability.

Top mounted input arm pivot position maintains the natural body movement of a gradually descending hand position during the movement.

User accessible weight stack offers ease of weight selection from seated exercise position.

Weight stack with low start weight and integral three-position Twist Select systems offering 2.5 kg increments is suitable for inexperienced and older users.

SPECIFICATIONS

Product Number	14030
Dimensions L x W x H	51" x 46" x 76" (130 cm x 116 cm x 193 cm)
Standard Weight Stack	245 lbs (111 kg)
Heavy Weight Stack	305 lbs (138 kg)

User accessible weight stack

Eight position reversible chest pad

Large seat base
