

# VR3 LEG EXTENSION TOTAL ACCESS

## WITH START RLD

### FEATURES

**Sliding adjustment for tibia pad length.** The tibia pads can be quickly and accurately positioned at the base of the shins without the need to screw or unscrew a lever.

**Spring loaded seat back adjustment lever** which can be adjusted either from on or off the equipment. The push down lever is easy to operate for users with limited grip.

Side handles parallel to seat side to assist with transfer.

**Raised numbers and large font on ROM.** These make start positions easy to adjust and identify for visually impaired or older users.

**Start ROM** on cam synchronised with user. Regardless of the starting position, the Cybex patent pending ROM adjustment ensures that the cam moves to maintain the correct strength profile for the user.

### SPECIFICATIONS

Product Number	14051
Dimensions L x W x H	49" x 41" x 64" (124 cm x 104 cm x 162 cm)
Standard Weight Stack	245 lbs (111 kg)
Heavy Weight Stack	305 lbs (138 kg)

Raised Numbering

Side handles

Inclusive Fitness  
accredited gym
