# KEY CONTROL™
## DEADBOLT

## THE SMART ALTERNATIVE TO MASTER KEYING IN A NEW CONTEMPORARY STYLE

Re-keying & managing a traditional master key system is labor intensive, time consuming & costly. With the first & only two cylinder Key Control Deadbolt, either cylinder can be re-keyed in seconds, without removing the lock from the door.

### Key Control

- Two separate cylinders, Tenant & Property Manager, allows for more tenant key cuts than a traditional master key system
- New proprietary keyway adds security - the tenant key will never fit into the Property Manager Cylinder
- The Property Manager Cylinder is concealed when not in use to avoid tenant confusion

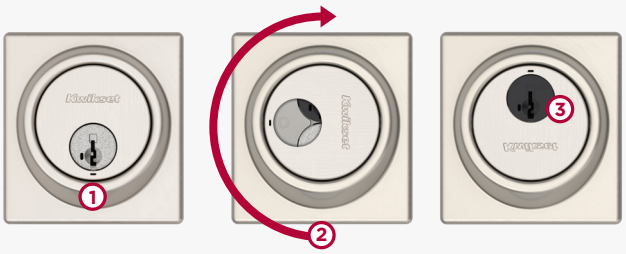
### Increased Efficiency

- Re-key the lock without removing from the door
- Save time & money by re-keying yourself
- Maintain key control throughout tenant and employee turnover

SMARTKEY SECURITY™

*Perfect for multi-family dwellings, student housing, assisted living & rental properties.*

*Cylinder cap removed to show both cylinders



***Easily access the Property Manager Cylinder:*** **(1)** Insert the SmartKey Tool into the slot at bottom of cylinder cover **(2)** Rotate cover clockwise to expose the Property Manager Cylinder. **(3)** Now you have access to the Property Manager Cylinder. Use tool to rotate counter-clockwise back to user's keyway when appropriate.

Plainlatches are used with passage and privacy functions. Deadlatches are used with entry functions.
All fronts are 2-1/4” high.
