

# Rediscover What Matters

Real results. Meaningful innovation.

## 700 Series Bikes

The Cybex 700 series bikes are the most unique in the industry – with three separate modes of operation, nine workouts with 21 levels, and our exclusive Cybex self-tensioning drive.

### Bike Mode

- Allows users to ride indoors while training muscles for outdoor riding
- As users increase level, the bike applies more resistance

### Constant Power

- Nine preset Constant Power workouts allow users to pedal at desired speed while the bike maintains a consistent workload
- Helps users reach their goal, whether it's weight loss or improving cardiovascular endurance
- Manual Constant Power allows advanced users to set their own watts level

### Isokinetic Mode

- Allows users to set a specific RPM (Revolutions Per Minute) at which they will pedal
- Provides accommodating resistance: if users pedal faster than their set RPM, the bike applies more resistance to maintain their set RPM; if users pedal slower, the bike applies less resistance
- **Perfect for performing those HIIT (high intensity interval training) protocols without the need to adjust the console. Speed up to work hard, slow down to recover**

### 770C UPRIGHT BIKE

Product Name	770C
Dimensions (L x W x H)	48" x 22.5" x 64" (122 cm x 57 cm x 162.5 cm)
Resistance Range	20 – 900 Watts
Max User Weight	400 lbs (182 kg)
Machine Weight	143.5 lb (65 kg)

### 770R RECUMBENT BIKE

Product Name	770R
Dimensions (L x W x H)	65" x 25" x 52" (165 cm x 63.5 cm x 132 cm)
Resistance Range	20 – 900 Watts
Max User Weight	400 lbs (182 kg)
Machine Weight	183 lb (83 kg)
