Hydro Rower

The Cybex Hydro Rower is the ideal solution for a total-body, non-impact workout from the comfort of your home.

FEATURES

- **Easy Resistance Adjustment:** The Hydro Rower features four resistance levels that can be adjusted on-the-fly to accommodate and challenge every rower. Removing the need to add or siphon water to change your workout level.
- **Fluid Water Technology:** The unique resistance system delivers a smooth and natural feel, providing constant resistance with each stroke.
- **Attention to Design:** A walnut brown wood finish and steel frame provide the premium look you've come to expect from Cybex and will be a great addition to any home training environment.

USER AMENITIES

- **Compact and Easy to Move:** Compact design and front wheels make the Hydro Rower easy to move and easy to store with an optional stand.

- **Track Your Row:** Console displays workout details including time, distance, strokes per minute, and 500-meter split time, as well as heart rate monitoring with optional receiver and chest strap.

- **Adjustable:** An adjustable footboard and foot straps make for a comfortable and safe rowing experience throughout your workout.
