

# Embedded Technology

## Workout Enhancements

### BUILT-IN AUDIO

A solution for customers who have TV screens mounted on the wall. The embedded wireless audio receiver is an entertainment option that is integrated into the 700, 600 and 500 Series cardio products. The wireless audio receivers work with new and existing Cardio Theater®, CardioVision®, BroadcastVision/BVE, Encercise, and Audeon (UK) system. The Cybex/MYE® Wireless Entertainment System transforms your cardio area into an extraordinary entertainment environment. Your members simply plug their headphones into the headphone jack on the Cybex equipment console and select the audio channel of any wall-mounted TV.

### FEATURES

- **Built-In Audio Controls:** The receiver is embedded inside the console for a clean, uncluttered appearance and high reliability. No external control box to get damaged.

- **The Wireless Audio Receiver:** Compatible with MYE, Cardio Theater, BroadcastVision and Audeon (UK) Transmitters. Available in 900MHz, 806MHz and 800MHz bands for worldwide compatibility.

- **Headphone Jack:** The highlighted and centrally located headphone jack is easy to find and clear of swinging arms.

- **Availability:** The Cybex/MYE Wireless Entertainment System is static free and available on 500, 600, and 700 Series products.
