## WHEEL EXCAVATOR

### FEATURES:

- **Engine** – Emits at levels equivalent to U.S. EPA Tier III and EU Stage IIIA emission standard. The C4.4 offers increased performance and reliability while reducing fuel consumption and sound levels.
- **Environmentally Responsible Design** – Helping to protect our environment, the engine has low operator and spectator sound levels, longer filter change intervals and is more fuel-efficient.
- **Hydraulics** – The state of the art load-sensing hydraulic system combined with a separate dedicated swing pump provides fast cycle times, increased lift capacity and high bucket and stick forces. This combination maximizes your productivity in any job.
- **Serviceability** – For increased safety, all daily maintenance points are accessible from ground level. A centralized greasing system allows lubrication of critical points.
- **Operator Comfort** – The operator station maximizes comfort while increasing safety. Safety is enhanced by the new color monitor and standard rear-mounted camera.
