

## Caterpillar Employee Blood Drives

Caterpillar and the American Red Cross have a very long-standing partnership in the effort to collect blood.

As stated on the American Red Cross website, the "American Red Cross Biomedical Services plays a critical role in our nation's health care system. It is the largest single supplier of blood and blood products in the United States, collecting and processing more than 40 percent of the blood supply and distributing it to some 3,000 hospitals and transfusion centers nationwide.

The American Red Cross empowers ordinary people to perform extraordinary acts of service. Our blood donors are ordinary people from every walk of life. They share one thing—a generous spirit, a desire to give back to their community and help others."

The American Red Cross relies on Caterpillar employees and retirees to assist with keeping adequate blood supplies in our communities. In 2012, nearly 2,000 pints of blood were collected in the Peoria-area Caterpillar facilities from generous donors. Caterpillar is proud to help support the Red Cross' efforts by offering blood drives.

Nine employees from the Global Marketing Talent Division (GMTD) and one employee from Medium Track Type Tractors (MTTT) came together to help support their coworker, Andy Stika, who was recently diagnosed with cancer by donating blood in his honor. Some of these employees were return donors while the majority were first-time donors. Nicki Lane, Marketing Recruiting/Development Supervisor in GMTD, said "Andy had only worked at Caterpillar for less than three months, after just graduating college last December, when he was diagnosed with Non-Hodgkins Lymphoma. We have tried to do what we can to support him, but when he went up to the Mayo Clinic in Minnesota, it became more challenging to show him physical support due to the distance. When I asked a Lymphoma survivor for advice, he suggested giving blood in honor of Andy. Since Andy has had blood diffusions himself, I thought it was a great way for us to show him that we still think of him daily and are rooting for his full recovery. Many who have not given blood in awhile, now plan to do so regularly. Hopefully our efforts to support Andy will eventually help many others in need as well."

Please consider donating and becoming someone's hero.

### General facts

- Every two seconds someone in the U.S. needs blood.
- More than 44,000 blood donations are needed every day.
- Type O-negative blood (red cells) can be transfused to patients of all blood types. It is always in great demand and often in short supply.
- The actual blood donation typically takes less than 10-12 minutes. The entire process, from the time you arrive to the time you leave, takes about an hour and 15 minutes.
- One donation can help save the lives of up to three people.
- The number one reason donors say they give blood is because they "want to help others."
- Blood is often needed by trauma victims, heart surgery patients, organ transplant patients, premature babies, and patients receiving treatment for leukemia, cancer or other illnesses.
