

## Our History

Caterpillar established its first major facility outside the United States more than 55 years ago in the United Kingdom. The presence of Caterpillar in the UK has grown rapidly in recent years and now has 16 major UK facilities.

Caterpillar is socially responsible and environmentally aware. The company is committed to a profitable and sustainable presence in the UK for the long-term benefit of all its stakeholders, not the least the communities in which Caterpillar employees live and work.

"Caterpillar has a long, proud history in the U.K. Our first manufacturing base outside the United States was established in Leicestershire over 50 years ago and we've been growing and thriving here ever since. Our U.K team is strong and talented. We've developed strong ties to the communities where our people live and work. And the products and services provided by our U.K businesses deliver tremendous value to our company and our customers. We've enjoyed great success here in the past and we look forward to an even brighter future."
