- Finance Shared Services
- Logistics and Supply Chain Solutions
  - Logistics
  - Information Technology
  - Business Process Services

## Other Caterpillar Businesses in India

- Solar Turbines: Is a world leader in the design, engineering, manufacture, and servicing of 1-23 MW size industrial gas turbines & centrifugal compressors for the oil & gas and power generation industries. The offices in India are located at Gurgaon and Mumbai, and provide sales and service support to customers in India and Bangladesh.
  - Power Generation: Solar Turbines provide ‘Gas Turbine’ based power generation solutions, both for up-stream and down-stream applications.
  - Petroleum: Solar Turbines provides ‘Gas Turbine’ and ‘Centrifugal Compressor’ based solution for a wide range of applications to ONGC, British Gas, Cairn India, Essar, GSPC, GAIL India, OIL India for their onshore & offshore projects.
- Hindustan: Recognized within India for over 30 years, the Hindustan brand is found on wheel loaders and off highway trucks sold exclusively in India.
- Electro-Motive Diesel (EMD): A part of Progress Rail Services that supports the needs of the Indian Railway. This covers the entire spectrum from supply of engines for locomotives, locomotive for rail traction, and track and coach reconditioning services.
- Bucyrus India Private Limited: Is a world leader in the design and manufacture of high productivity mining equipment for surface and underground mining. In addition to machine manufacturing, Caterpillar manufactures high-quality OEM parts and provides world-class support services for it’s equipment.

## Caterpillar Dealers in India

GMMCO and TIPL offer ‘one stop solutions’ to customers looking for mining, construction, infrastructure, road-laying machines, engines of various capacities and for various applications. Starting with advice and consultancy in choosing the right product to round-the-clock on-site support, their business solutions include both new and used products, as well as rental options.
