

WHAT WE CAN HELP YOU DO

- 🔍 **IDENTIFY:** Potential equipment problems | Problem areas on site
- 🚫 **PREVENT:** Component failures | Productivity loss
- ⬇️ **REDUCE:** Unscheduled downtime | Maintenance time | Operating costs
- 🔄 **STREAMLINE:** Service | Maintenance management and scheduling

WHAT WE OFFER: HEALTH CAPABILITIES

- 1 Maintenance and Service Tracking**
 - » Ensures maintenance is performed on time and keeps equipment in top condition
 - » Helps to avoid failures and unexpected shutdowns and enables better planning
- 2 Real-time Alerts**
 - » Enables immediate and appropriate action if problems arise
 - » Shares information with other MineStar capabilities to adjust equipment status
- 3 Comprehensive Health Monitoring**
 - » Tracks and records a wide range of critical machine parameters
 - » Makes data available as real-time alerts and in a historical database for trending analysis
- 4 Proactive Service & Maintenance Management**
 - » Helps managers track what equipment is due for service, schedule repairs and maintenance, and monitor performance
 - » Provides easy-to-understand analysis in customizable reports and can also integrate information into a production database for expanded analysis

Delivers critical event-based machine condition and operating data for your fleet

- » Universal functionality
- » Works with most surface and underground assets
