

WHAT WE CAN HELP YOU DO

-  **MANAGE:** Individual machines | Fleets | Entire operations
-  **REDUCE:** Shift change times | Overall costs
-  **IMPROVE:** Productivity | Safety | Efficiency | Fleet performance
-  **SEE:** Detailed data | Analysis | Future scenarios

CAT® MINESTAR™ FLEET SEE THE BIG PICTURE

WHAT FLEET PROVIDES:

- » Seamless tracking, monitoring and management of the entire operation from a central office.
- » “What if” simulations to help determine the impact of operational changes
- » Vital monitoring, assignment and tracking tools that serve as the foundation to autonomy
- » The ability to drill down into data for more detailed views and analysis

WHAT WE OFFER: FLEET CAPABILITIES

- » *Production.* Provides real-time visibility to cycle time, payload and other key operational parameters.
- » *Assignment & Optimization.* Schedules and assigns equipment, maximizes production and shovel utilization, minimizes truck wait time and manages shift changes.
- » *Position & Material.* Monitors machine locations and material movement; alerts operators and planners of misroutes to ensure material is moved to the proper location

Future capabilities will include:

- » *Data Share.* Will enable Fleet to share data and information with other electronic mine site management systems.
- » *Multi-Site.* Will allow for management of multiple Fleet-equipped mine sites from a single control center.

Integrated fleet monitoring and management system for mining that lets you track, manage and assign

- » All types of equipment
- » From Cat trucks to other OEM machines
- » One site or multiple sites
