

D6N LYRICS

(Yeah, uh huh)

I'm a proud owner of a Cat dozer *(yeah boy)*
I for real doze in my steel toes,

(Slope assist!) guides the blade so I stay on grade!
(Slope indicator,) right here in the dashboard like I asked for!,
(Enhanced auto) shift automatically shiftin,
More fuel efficient, *(what what)* listen

(Let's go)

Yo, It's 6 o'clock and the job is done,
But I'm not going anywhere cuz this is too much fun, *(okay)*
I'm reminded every time I see a precision grade,
This is probably the best decision I've ever made *(yeah)*
When I first laid eyes on it, I knew I found the one for me *(one for me)*, climbed inside and sat down in the lap of luxury *(luxury)*.
It's been great, in the weeks since then,
Honk when u see me operating in my D6N, *(yeah)*

Look at me in my dozer, wanna be in my dozer,
Care.. Free in my dozer!
Yeah my day is over but I,
Stay in my dozer, Lay in my dozer, *(yeah boy)*
I love my job cuz work to me's like,
Play in my dozer

Slope assist helps hide the fact that I forgot my glasses, the roads I grade score so high call em over *(passes)*. Get it?
Slope indicators neighbors,
Jealous of the auto shift,
I'm in a sandbox smiling like a little kid! *(uh huh, little kid)*

Do you know what you mean to me, *(mean to me)*
You're more than machinery *(machinery)*, Yeah,

I'm just exploring the scenery, one more lap around before I shut it down.

Look at me in my dozer, wanna be in my dozer,
Care.. Free in my dozer!
Yeah my day is over but I, Cruise in my dozer, still usin' in my dozer
I feel like its impossible to lose in my dozer, Yeah

I'm pushing dirt, *(okay)*
I'm spreading sand, *(yeah)*
I'm grading roads, *(uh huh)*
I'm clearing land

Ride in my dozer,
Take pride in my dozer,
When my wife is mad I go and hide in my dozer, *(what)*

Look at me in my dozer, *(what)* wanna be in my dozer,
Care.. Free in my dozer!
Yeah my day is over but I, Cruise in my dozer, still usin' in my dozer
I feel like its impossible to lose in my dozer *(yeah)*

Yeah, don't be one of those non-factor contractors, you know what I'm saying.
