# MaK REParts

## Maximum Uptime at Minimum Cost.

Prompt and worldwide availability of quality parts is critical for your business success – often making all the difference in maintaining uptime and staying profitable. Many of our genuine MaK parts may often be rebuilt for a second life, adding value to your investment and reducing overall owning and operating costs.

Through our new MaK **Repair and Exchange Parts (REParts)** program, we can offer our customers extensive repair and exchange options that provide same-as-new performance and reliability at a fraction of new price. The results are maximum engine productivity and lower life cycle costs – while reducing the impact on the environment.

## A New Option for a Wide Range of Parts.

When your engine requires service, you need options that get your vessel back into operation quickly. Our extensive MaK REParts program provides you with sustainable, cost-effective and high-quality service solutions through the optimal reuse of parts during an engine overhaul.

#### **Maximum Uptime at Minimum Cost**

- Prompt Availability of MaK REParts
- Low Owning and Operating Costs
- Same-as-new Quality
- Fraction of New Price
- Good for the Environment

#### **Repair and Exchange Components:**

- Piston Crowns
- Cylinder Heads
- Injection Pumps
- Connecting Rods
- Vibration Dampers
- Turbochargers
- Exhaust Cages

### Same-As-New Performance.

We provide our customers with the most cost effective solutions available in the industry. MaK REParts are produced to the same quality standards as our original OEM parts.

By utilizing our state-of-the-art salvage and cleaning techniques, quality control, and stringent testing, MaK parts are returned to their original specifications. Only this attention to detail ensures MaK REParts provide same-as-new quality and reliability.

When you install MaK REParts, you can be assured that the reliability and performance of your engine will be maintained. Equally important, all MaK REParts are backed by our parts warranty.

### Ready to Use, Easy to Exchange - Wherever You Are.

MaK REParts are ready to use, easy to exchange and install, so you can minimize downtime and increase your vessel availability. Our broad line of MaK REParts is supported by our worldwide approved dealer and distribution network, and can be ordered through your local MaK representative.

Repaired to OEM specifications.

### **Return, Repair, Or Replace.**

MaK REParts provide you with an option to lower owning and operating costs by reusing many of the original components. With the return of your used genuine components, you can save 20-40% of the repair or replacement costs. We visually inspect the used components, providing an immediate decision on core condition and cost, so you can better estimate repair costs.

The return criteria\* and process is simple. The component should be in fair and usable condition, no visible cracks, damage or welded repairs. It should be fully assembled and complete, with no excessive rust or corrosion on interior or machined surfaces. And, you decide whether to repair or exchange your MaK components.

### **A Sustainable Solution.**

MaK REParts make a positive contribution to sustainability by keeping non-renewable resources in circulation for multiple lifetimes. By returning used components to same-as-new condition, we reduce waste and minimize the need for raw material to produce new parts.

As you would expect, MaK REParts conform to all EIAPP and IMO requirements (as applicable) and meet all current and future emission-relevant regulations.
