

# Hazard Recognition

Toolbox Talks are intended to facilitate health and safety discussions on the job site. For additional Toolbox Talks, please visit SAFETY.CAT.COM™

### **TOPIC: Hazard Recognition**

Safety is a way of life and should be thought about so often that it simply becomes second nature. Recognizing hazards is an important part of keeping you and your co-workers safe.

#### **Making Hazard Recognition Second Nature**

- Review safety procedures for your job and work area on a daily basis
- Understand how unsafe acts can lead to accidents
- Participate in safety training every opportunity you get
- Use your safety knowledge in all aspects of your job, every hour of the day
- Help instruct new workers in identifying potentially hazardous situations

#### **Identify Unsafe Acts**

- Be aware of your surroundings
- Many hazards are obvious to those who open their eyes and minds to see them

#### **Correct Potential Hazards**

- Hazard recognition is valuable only when corrective action is taken
- Report all potential hazards to your supervisor
- Work with your supervisor to make sure the hazard is corrected and communicate with co-workers so they don't cause any potential hazards
- Be the safety coordinator for your work area and stress the importance of safety to your co-workers
- If you are not sure what to do, ask
