

TOGETHER.STRONGER.

A COLLABORATIVE IMPACT PLATFORM FOR PURPOSEFUL PARTNERSHIPS

AT THE CATERPILLAR FOUNDATION,

We believe no one individual, no one company, no one organization, can break the cycle of poverty alone. The strengths of different minds combined together with the wisdom from different experiences lead to more collaboration and more sustainable, scalable solutions to global issues. We believe that together is the only way we can create sustainable progress for all.

This collaborative approach to purposeful partnerships manifests through our impact platform: Together. Stronger.

Launched in 2014, **Together.Stronger.** is our collaborative impact platform that unites businesses, non-profits, governments and citizens to combine their strengths to empower 50 million people to rise out of poverty by 2020.

We partner with groups like the United Nations Foundation, Global Alliance for Clean Cookstoves, The One Campaign, Opportunity International, Global Poverty Project the State Department and others to build a collaborative eco-system that employs advocacy, best-in-class on-the-ground programs, and the integration of business and philanthropy to scale strong global solutions.

TOGETHER. STRONGER.

CATERPILLAR®

Together we are Stronger.

We catalyze these partnerships to invest in programs that support game-changing solutions to global systemic challenges and build stronger communities.

FOR PEOPLE LIVING WHERE there is almost nothing but hope, one investment can do so much:

- One clean water source can create the conditions for a village to build an economy.
- One safe place to live can shelter a family from uncertainty.
- One immediate response during disaster can instill resilience in a community.
- One accessible well can give community members more freedom to explore, learn and grow.
- One school can spark a child's mind.
- One loan can make economic dreams real.

ANY ONE OF THESE CAN HELP, but all of these needs working together are required to empower millions of people to rise out of poverty. Only together can we create a Path of Shared Prosperity for all. **Together.Stronger.**
