

Caterpillar Foundation / charity: water Water Walk

Learn more about the Clean Water Crisis

The Caterpillar Foundation's mission is to alleviate poverty. The Foundation has partnered with charity: water to bring clean water to the more than 663 million people in the world that live without it. Every day in sub-Saharan Africa, women and girls will lose 21 million hours fetching water for their families. In an average village, that can mean four or five hours a day for every woman.

Visit the Water Walk exhibit and experience the daily journey of these women and children by carrying 40 liters of clean water in two yellow fuel containers.

For every lap taken at bauma, the Caterpillar Foundation will donate 5€, up to \$1M.

Water Walk Location: Atrium outside of Hall B5/A5 (steps away from the Caterpillar exhibit in Hall B6)
