

Cat[®]

Hammers

H25D

FEATURES:

Perfect Fit

- The H25D is perfectly suited for demolition and recycling contractors working inside buildings and in areas with limited access.
- Because of its small size, the 300.9D and H25D can be easily transported to the job site.
- The H25D is intended for use on the 300.9D mini-excavator, rounding out the Cat hammer product line to cover machines sized from 0.8 ton (1,700 lb) through the 75 ton (165,000 lb) range.

Simple Design for Reliability & Serviceability

- The H25D features a streamlined shape that provides good access to narrow places.
- Just two moving parts keep maintenance to a minimum.

High Blow Rate

- The H25D has a high blow rate, which translates to high productivity.
- Blow energy is constant regardless of the oil flow adjustment (within specifications).

Bushing Replaces Easily, Quickly

- Replacement of the single lower tool bushing can be done in a matter of minutes for minimal down time and better productivity.

Mounting Hardware Included

- The hammer comes with a complete mounting group for installation on the 300.9D.

Hammers/Machines Compatibility

Contact your Cat Dealer for specific machine configurations.
