

# COMPACT

THE CONSISTENCY YOU WANT.

# ACHIEVE CONSISTENT, HIGH-QUALITY RESULTS FASTER AND EASIER.

Cat® COMPACT, part of Cat Connect Technology, combines advanced compaction measurement, in-cab guidance and reporting capabilities to help you consistently meet compaction targets faster, more uniformly and in fewer passes. With Cat COMPACT, your machines are now equipped with state-of-the-art technology that enables you and your operators to visualize the work performed, identify areas of concern and work smarter.

## REST EASY KNOWING YOUR OPERATORS ARE INFORMED

Cat COMPACT technologies for landfill compactors display critical information to the operator when they need it. Real-time compaction, pass count, and design data are at the operators fingertips to aid in achieving maximum density in the fewest number of passes - all while ensuring they aren't over-building the design.

## MEET COMPACTION IN FEWER PASSES

Cat COMPACT technologies for landfill compaction feature the Cat Compaction Algorithm (CCA); an elevation-based algorithm. CCA tells the operator when the layer is compacted, and is a proven technology for determining adequate compaction. CCA is displayed to the operator in an easy-to-understand and simple interface, so operators can quickly make the decision when to add more waste

## TAKE CONTROL OF YOUR LANDFILL OPERATION.

Get better visibility into operator and compactor performance, and drive improvements to maximize the life of your landfill by utilizing the optional VisionLink Landfill Application subscription. Whether on a mobile device or desktop computer, track volumes, density, cut/fill data and more to keep informed of your operation.

# THE CONSISTENCY YOU WANT FROM YOUR EQUIPMENT.

Cat COMPACT technologies are available from the factory or as dealer-installed options.

 COMPACT	FACTORY INTEGRATED		DEALER INSTALLED			
	CAT® COMPACTION CONTROL for Landfills		ACCUGRADE™ for Landfills		Trimble® CCS900	
	SBAS Basic System	RTK Advanced System with CCA	SBAS Basic System	RTK Advanced System with CCA	SBAS Basic System	RTK Advanced System with CCA

## CAT® CONNECT

EQUIPMENT  
MANAGEMENT

PRODUCTIVITY

SAFETY

SUSTAINABILITY

Connect combines technologies and services to boost your jobsite performance. Whether you're running a few pieces of equipment or a big fleet, your Cat dealer can help you put together a package that gives you timely information about your operations, helps you complete jobs faster and lets you achieve the efficiency you want.

It's what we're built to deliver.
