- Dedicated swing pump, allowing faster, smoother combined movements.
- Built-in fuel savers, eliminating waste with features like Auto Engine Speed Control, Engine Idle Shutdown and efficient Eco Mode.
- “On-Demand” Strategies, to consume just the right amount of fuel, with on-demand fan or new optimized demand-driven driveline.
- Highly mobile, the M314F can travel up to 37 km/h (23 mph).

Versatility

- Flexible configurations to meet all your needs with various booms/sticks, undercarriages and counterweights.
- “Plug and Play” design, with complete integration of the whole portfolio of Cat attachments.
 - Auxiliary hydraulics, including high pressure.
 - Readiness for Cat Pin Grabber Coupler (with lines and circuits).
 - The monitor can allow ten hydraulic pump flow and pressure settings at the same time.
- Joystick buttons/sliders can be set up per tool as desired by the operator.
- Utility and finishing work are fast and flawless with a Cat compactor or bucket.
- Dealing with debris and waste is easy with a Cat hammer and grapple.
- Couplers let you swap between attachments in seconds without leaving the cab.

Ease of Operation

- Everything can be adjusted in the cab from the steering column height to the electrically adjustable mirrors.
- Ergonomic cab with controls kept to a minimum and conveniently located.
- Split-screen monitor to allow quick view of both cameras on the same display.

Safety

- Integrated devices to help enforce safe behavior, like seat belt indicator, or the speed limit setting when roading in reverse with the upper frame rotated.
- Visibility: large glass areas, rear/side cameras. LED lamps for all working lights and cameras.
- Fenders (optional) add further protection of your equipment.
- Integrated pin code adds anti-theft security to your equipment.

Maintenance

- Ground level access to all routine maintenance (like fuel and engine oil filters).
- Easy access: clean, simple design. Radiators are all gathered together.
- Reduced maintenance: automatic features (like lubrication system) along with long greasing intervals. No Diesel Particulate Filter.

Cat Connect Technology

- Product Link™ connects owners to their equipment, providing access to machine data such as location, hours, fuel consumption, idle time, events, and diagnostic codes.
