

# PREDICTABLE, REPEATABLE PERFORMANCE THAT KEEPS YOU ON TARGET.

To meet your production targets every day, you need predictable, repeatable performance from every piece of equipment. Cat® Fleet automatically records and tracks data up and down your value chain, providing insights that help you identify what's working and fix what's not. Cat Fleet is your single best source for fleet-management information that you can use with any machine or system to measure, manage and maximize every facet of your operation.

## MEASURE

**VIEW** your entire operation at a glance on your computer.

**COLLECT** real time data on cycle times, payloads and other key performance indicators.

**GENERATE** targeted reports that make key information easy to understand.

**TRACK** every machine and instantly see what jobs they are doing and who is operating them.

**MONITOR** machine speeds, operator performance, fault code alerts and more.

## MANAGE

**GAIN** insights into key cost drivers – fuel, tires, service parts, idle time, etc.

**RESCHEDULE** and reassign equipment quickly as operational requirements change.

**MINIMIZE** truck wait times at loading tools and fuel stops.

**FOLLOW** all machine and material movement across your site.

**PREVENT** misroutes, ensure that operators and managers know where every load is headed.

## MAXIMIZE

**IMPROVE** haul fleet production and shovel utilization.

**OPTIMIZE** every piece of equipment in your fleet, regardless of manufacturer.

**ENABLE** autonomous haulage and other automated mining systems.

**AUTOMATE** fuel scheduling and shift changes for optimum load counts per shift.

**ANALYZE** “what if” scenarios to choose the best course of action when equipment availability changes.
