

CONNECT WITH YOUR EQUIPMENT AND LISTEN TO WHAT IT'S TELLING YOU.

When you know what's going on inside your equipment, you're one step ahead in the cost-control battle. Cat® Health keeps you connected, so you'll always know what's happening with your fleet. It works with multiple brands of equipment—monitoring critical parameters, analyzing trends and providing real-time alerts when issues arise. Cat Health gives you the inside information you need to run machines as efficiently as possible for as long as possible.

CAPABILITIES

REAL-TIME EQUIPMENT ALERTS —

Service personnel get instant alerts when problems arise, so you can take immediate action to head off major failures.

MAINTENANCE & SERVICE

MANAGEMENT — Customizable reports help managers track what service is due on their fleet, schedule repairs and monitor post-repair performance.

GLOBAL KNOWLEDGE SHARE — Cat Health leverages the power of lessons learned on fleets all around the world by combining Caterpillar and Cat Dealer expertise with field tested best practices and fleet performance data.

COMPREHENSIVE HEALTH

MONITORING — Cat Health tracks and records a wide range of machine parameters, records incidents for analysis and builds a database for ongoing fleet health analysis.

PROACTIVE EQUIPMENT

MANAGEMENT — Recommendations for work based on predictive analytics allow maintenance procedures to be planned, scheduled and performed on time, reducing the risk of catastrophic failure.

VALUE TRACKING — Quantify the value of repair-before-failure strategy in terms of cost and risk avoidance associated with major failures and unplanned downtime.

CAT HEALTH KEEPS YOU CONNECTED TO:

IDENTIFY	PREVENT	REDUCE	CONTROL	STREAMLINE
potential problems with your equipment and site conditions.	major component failures, lowering total owning and operating costs.	unscheduled downtime and overall maintenance time.	costs by detecting problems early.	service scheduling for minimum production disruption.
