

CAT® OIL & GAS NEWS

ISSUE 3

KEEP THE ENERGY FLOWING.

CAT® OIL & GAS SOLUTIONS

YOUR SINGLE SOURCE SUPPLIER.

We talked to Jared Oehring, vice president of technology at U.S. Well Services, about the benefits of sourcing their engines, transmissions, fluid ends, valves and seats all from Caterpillar. Read the full interview [here](#).

BUILT FOR IT.

RESTORE YOUR ENGINE AND YOUR UPTIME.

To get you back up and running wherever you are, we developed a full range of Bundled Repair Solutions to fit the wear of your engine at the right price. Whether you need a major overhaul or you're just looking for reman parts, we're here to help you maximize uptime and your investment.

» GAS COMPRESSION SUPPORT

» LAND DRILLING SUPPORT

A CLOSER LOOK AT WELL SERVICE.

We built the 3512 well service Bundled Repair Solution with flexibility and customization in mind.

» 3512 WELL SERVICE SUPPORT

MAKE THE SWITCH.

When J4 Oilfield Services made the switch to Cat® valves and seats, they saved more than just money. From increasing safety to maximizing efficiency, hear from Colton Willis, the company's fracturing manager, about why they'll never go back.

FOUR REASONS TO CONSIDER DUAL FUEL SOLUTIONS FOR YOUR FPSO

Maximizing fuel flexibility without sacrificing performance – it's just one reason to consider Cat CM34DF and CM46DF dual fuel engines for your FPSO application. Learn more and [check out other solutions](#).

GAS COMPRESSION INDUSTRY GAME CHANGER

A 5% power increase. 40% less NOx emissions. Plus full power for sites with altitudes up to 6,000 feet – and even up to 8,000 feet for some platforms. See [why the G3600 ADEM A4 is an industry game changer](#).
