# Perkins

# brand promise

Our brand promise revolves around collaboration and the benefits that collaboration delivers. These benefits are channelled through five key pillars:

## **WORLD-CLASS PRODUCTS**

Power in the way that you want it

Perkins offers an industry leading choice of world-class engines and options, so you can be confident that we'll have the right engine platform for your market and application - and that we will work with you to configure it to your exact needs. We deliver power in the way that you want it.

## **GLOBAL BUSINESS CONSISTENCY**

Consistent collaboration, wherever you are

Perkins manufactures globally to the same rigorous process and quality standards, so you'll be working with an experienced single supplier who will deliver the exact same engine wherever you are in the world, minimising time, risk and cost. We deliver consistent power, wherever you are.

## **EXPERTISE IN MACHINE INTEGRATION**

Reliable power in  
the way you want it

Helping solve unique power challenges for over 85 years, Perkins has supported OEMs in everything from engine design and development through to machine installation. Today, we work side by side with our customers to create bespoke applications which accelerate and optimise machine integration to meet your specific market needs and reduce risk, development costs and time to market. We help you design innovative power solutions.

## **GENUINELY FLEXIBLE AFTERMARKET SUPPORT**

Service, the  
way you prefer

With an extensive and fully resourced global presence and a commitment to collaboration beyond just engine installation, we're able to customise our aftermarket services to your needs and choose from a flexible range of high quality options. We help you service your equipment in the way that you prefer.

## **EXPERTISE BEYOND ENGINES**

Understanding your  
objectives and  
working with you  
to achieve them

Integrated with your business and working as an extension of your team, our focus is on understanding your objectives and working with you to achieve them. We are invested in your ambition and driven by your needs, which helps us to respond more effectively - and deliver optimum power solutions.

# Diesel engine ratings definitions

## **IND-A (Continuous)**

Continuous heavy-duty service where the engine is operated at maximum power and speed up to 100% of the time without interruption or load cycling.

## **IND-B**

For service where power and/or speed are cyclic (time at full load not to exceed 80%).

## **IND-C (Intermittent)**

Is the horsepower and speed capability of the engine where maximum power and/or speed are cyclic (time at full load not to exceed 50%).

## **IND-D**

For service where maximum power is required for periodic overloads (time at full load not to exceed 10% of the duty cycle).

## **IND-E**

For service where maximum power is required for a short time for initial starting or sudden overload. For emergency service where standard power is unavailable (time at full load not to exceed 5% of the duty cycle).

## Abbreviations

### For engine aspirations

NA..... naturally aspirated  
T..... turbocharged  
TA ..... turbocharged and aftercooled  
TTA ..... series turbocharged and aftercooled

### For aftertreatment

DOC.....diesel oxidation catalyst  
DPF.....diesel particulate filter  
SCR ..... selective catalytic reduction

### Rating conditions

Rating conditions for engines up to and including 7.1 litre displacement are based on ISO/TR14396.

Ratings for engines above 7.1 litre displacement are based on SAEJ1995.

The charts represent only a selection of the power ratings available from the Perkins industrial engine range and may not yet be in full production. Other emissions standards may be available.

Contact your Perkins distributor **[www.perkins.com/distributor](http://www.perkins.com/distributor)** for advice on your powertrain.

Information is subject to change without notification.

# Basic specifications

All of our engines are offered with a choice of factory configurable options. The weight and dimensions will depend on the final configuration selected to match your machine. The figures in this table are therefore indicative only, and do not include aftertreatment.

Model	Bore mm (in)	Stroke mm (in)	Length mm (in) front of crank pulley to rear face of flywheel housing	Width mm (in)	Height mm (in)	Dry weight kg (lbs)
