

Cat® D7E Track-Type Tractor Dredging Arrangement

The D7E provides value for the dredging industry with productivity, durability and fuel efficiency advantages. The D7E is also easily transported during mobilization and demobilization.

Cat® C9.3 ACERT™ Engine

Net Power (Rated) – ISO 9249..... 238 hp
Global Emissions.....U.S. EPA Tier 4 Final/EU Stage IV

Operating Weight – STD SU 57,441 lb
LGP S62,886 lb

Drive Train..... Electric Drive

D7E Advantages*

- Fuel Efficiency: 10 to 30 percent less fuel burned per hour
- Integrated Technologies: Cat Connect makes smart use of technology and services to improve your job site efficiency. Using the data from technology equipped machines, you'll get more information and insight into your equipment and operations than ever before.
- Reduced Owning and Operating Costs: Fewer moving parts, longer drive train component life, reduced lifetime service and maintenance
- Increased Efficiency: Lower fuel usage per cubic yard of material moved
- Increased Productivity: More material moved per hour
- Versatility: Power, smooth operation and maneuverability for a wide variety of applications

* Compared to D7R2.

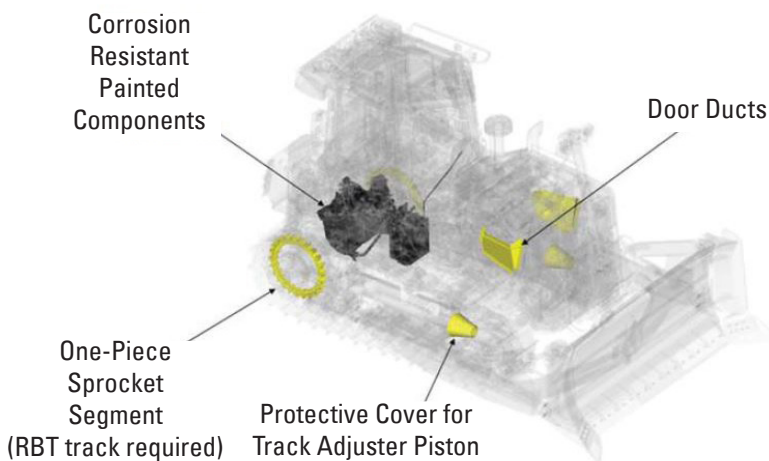

Cat® D7E Dredging Arrangement

Designed specifically to enhance performance in water fording and salt water applications, the D7E Dredging Arrangement includes:

- Corrosion resistant paint on key components
- Removal of radiator grill door improves air flow
- Specialized engine enclosure door covers reduce cooler plugging
- Undercarriage performance enhanced with specialized one-piece sprocket segment
- Track adjuster piston cover protects from corrosion
- Other dealer modifications available to suit dredging application

Contact your local Cat dealer for more information.

INTEGRATED TECHNOLOGIES TO MONITOR, MANAGE AND ENHANCE JOB SITE OPERATIONS

- CAT SLOPE INDICATE
- CAT ACCUGRADE™
- CAT STABLE BLADE
- TRACTION CONTROL
- PRODUCT LINK™/VISIONLINK®
