

# BUILDING BETTER

## Caterpillar's Approach to Sustainability

Sustainability is part of who we are and what we do every single day. We recognize progress involves a balance of **environmental stewardship**, **social responsibility** and **economic growth**.

Environmental  
Stewardship

Social  
Responsibility

Economic  
Growth

# SUSTAINABILITY STRATEGY

We provide work environments, products, services and solutions that make safe, productive and efficient use of resources as we strive to achieve our vision.

We apply innovation and technology to improve the sustainability performance of Caterpillar's products, services, solutions and operations.

We believe sustainable progress is made possible by developing better systems that maximize life cycle benefits, while also minimizing the economic, social and environmental costs of ownership, as reflected in our sustainability principles.

We will execute our strategy by working to meet our aspirational sustainability goals.
