**BUILT FOR IT.™**

## DO MORE WITH ONE MACHINE.

Invest in what you already own — give your machine Cat® attachments and equip it to do more. And because our attachments are engineered, balanced and tested to each Cat model, they promise to minimize stress and optimize performance. Browse our lineup and find the tools to make your work easier.

# AUGERS

## Bore with better efficiency.

Our augers offer different speed and torque options for work in a variety of soils. We've engineered their speed to extract soil efficiently and their torque to prevent stalling in dense ground. Select from a range of auger bits.

### Specifications

Attachment Model	Machine Models	Drive Shaft Torque @ Max Pressure		Drive Method
		Nm	(lb ft)	
A26B	All below	6830	(5040)	Double Planetary

**Backhoe Loaders**  
416F2 420F2

# AUGER BITS

### Standard Bit

- Factory standard
- For drilling holes with a large diameter

### Tree Bit

- Tapered tip
- For drilling holes with a large mouth and narrow base to properly fit a root ball or holes with a small diameter to fill with mulch or fertilizer

### Industrial Bit

- Excellent tooth retention while digging
- Allows for easy removal and installation

### Standard Rock Drill Head Bit

- Transforms a standard bit into an industrial bit
- For severe ground conditions including rock and various types of concrete
- Bolt-on design for easy removal when returning to normal conditions

# BUCKETS

General purpose

Multi-purpose with forks

## Move more material in less time.

The shape of our buckets improves digging, loading and material retention. Compared to most competition, we have more capacity per every inch of width. And each is made of high-strength, tempered steel, offering 50 percent more wear life than the industry standard. Select from a range of bucket teeth.

### Specifications

Attachment Models	Machine Models	Width Range	Capacity Range			
			mm	(in)	m <sup>3</sup>	(yd <sup>3</sup> )
Loader (Front)	General Purpose	All below	2262	(89.0)	0.96	(1.26)
	General Purpose	420F2	2434	(95.8)	1.15	(1.50)
	Multi-Purpose with Forks	All below	2279	(89.7)	0.96	(1.26)
Hoe (Rear)	High Capacity	All below	510	(20.1)	0.24	(0.31)
	Heavy Duty	All below	305	(12.0)	0.078	(0.10)
	Heavy Duty	All below	406	(16.0)	0.092	(0.12)
	Heavy Duty	All below	610	(24.0)	0.175	(0.23)
	Heavy Duty	All below	462	(18.2)	0.233	(0.30)

**Backhoe Loaders**  
416F2 420F2

Heavy duty

High capacity

# COLD PLANERS

## Mill asphalt and concrete quickly.

Our cold planers are made to smooth imperfections and remove deteriorated pavement or paint where dedicated planers can't. A hydraulic side-shift feature allows for planing close to curbs, walls and other obstructions. And our self-leveling technology ensures consistent ground contact.

### Specifications

Attachment Model	Machine Models	Drum Width		Number of Bits
		mm	(in)	(conical)
PC404	All below	450	(18)	48

#### Backhoe Loaders

416F2 420F2

# COUPLERS

## Move quickly from task to task.

Our Dual Lock™ Pin Grabber Couplers allow operators to change attachments in seconds, increasing job efficiency and enabling one machine to do multiple tasks. And all Cat models include primary and secondary locking systems to ensure what you put on your machine, stays on.

### Specifications

Attachment Model	Machine Models	Weight	
		kg	(lb)
Hoe	Dual Lock™ Pin Grabber	87	(195)

#### Backhoe Loaders

416F2 420F2

# FORKS

## Transport more materials.

From stacked feedbags to loose straw, load and transport in less time. Our fold over forks improve material retention so work is always neat and always efficient.

### Specifications

Attachment Model	Machine Models	Tine Length		Fork Tine Width	
		mm	(in)	mm	(in)
Fold Over	All below	1067	(42)	80	(3.2)

**Backhoe Loaders**  
416F2 420F2

# HAMMERS

## Separate the toughest surfaces.

Our hammers were designed for hard hits, reducing rock and concrete materials. Each features an automatic shut-off and a buffering system to reduce machine vibrations. And some of our hammers are fully enclosed to suppress noise.

### Specifications

Attachment Models	Machine Models	Operating Weight*		Blow Rate	Tool Diameter	
		kg	(lb)		blows/min	mm
H65E/H65Es Flat-Top	All below	260-390	(573-860)	720-1740	68	(2.68)
H75Es	All below	500	(1013)	840-1650	74.5	(2.93)
H95Es	All below	730	(1610)	700-1260	87.5	(3.44)

\*Maximum

**Backhoe Loaders**  
416F2 420F2

# THUMBS

## Go from digging to material handling.

Our thumbs work with buckets to grab, pick or sort material. They're hydraulically controlled from the cab, opening and closing around loads. And when you don't need it, the thumb can recline against the machine stick.

### Specifications

Attachment Model	Machine Models	Rotation Angle degrees
Hydraulic	All below	105

**Backhoe Loaders**  
416F2 420F2

# VIBRATORY PLATE COMPACTORS

## Pack with power.

Cover more ground with our vibratory plate compactor's large surface and pack soil faster with its high-power pulses. We've even built in flexible isolators to guard against excessive vibrations.

### Specifications

Attachment Model	Machine Models	Impulse Force		Base Plate Width		
		kN	(lbf)	Cycles/min	mm	(in)
CVP40	All below	40	(8928)	2200	584	(23)
