

## RAIL & Other Track Material (OTM)

Progress Rail is an authorized rail distributor for ArcelorMittal (Steelton, PA) and Evraz Rocky Mountain Steel (Pueblo, CO). We carry an extensive inventory at both steel mill locations and can supply customized piece lengths and drilling for your specific requirements. In addition, we stock all types of rail steel grades including AREMA standard and head hardened. For an economical alternative, we offer Industrial Grade rail which is an optimal solution for Shortline Railroads and Industrial applications.

# RAIL SALES

If you are in the market for continuous welded rail, Progress Rail's Rail Welding Division operates, at each rail mill, a full line welding facility that can weld lengths to your specific needs. Don't have a CWR train? Don't worry, We also operate and maintains a fleet of CWR trains that can transport your welded rail to where you need it.

Our extensive inventory of OTM is located strategically throughout the United States and Canada, allowing us to deliver it to you quickly with minimal freight costs.
