

5 WAYS YOU CAN MITIGATE RISK WITH CAT[®] CONNECT

Effectively managing your equipment is one way to lessen the impact of some of those day-to-day risks.

1 LIMITED RESOURCES

By understanding which equipment needs attention, you can better use the right resources, at the right time and with the right capabilities, to keep focus on the priorities.

2 UNSCHEDULED DOWNTIME

Keeping up with preventive maintenance is the single best way to avoid major equipment failures. Also, take full advantage of electronic alerts and equipment data event logs to help spot small problems before they can cause larger issues.

3 LIMITED CASH FLOW

Unplanned repairs or early equipment replacements cripple your cash flow. Good equipment management helps you maximize uptime and extend the life of your equipment.

4 FAILURE TO START

Equipment alerts can provide peace of mind knowing that simple problems won't prevent your generator set from starting and picking up rated load when you need it.

5 PROTECT YOUR MOST VALUABLE ASSETS

Quick response times by operators can prevent major failures and reduce the risk to your business and your most valuable assets – your people.
