

PROGRESS RAIL FUEL INJECTORS

Progress Rail OEM fuel injectors are fully remanufactured to precise internal specifications vs. non-OEM retrofits. Progress Rail OEM injectors ensure optimal fuel economy and emissions performance over their full useful life and avoid operating penalties and expense of non-compliance.

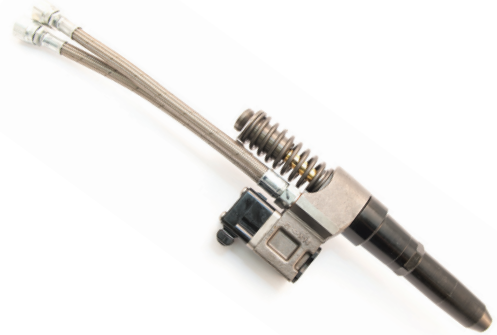

THE EPA SOLUTION™ FOR TIER 0 PERFORMANCE

- Standard & Tier "0" Applications
- One Year Warranty
- Fits All Applications
- Low Smoke
- Low NOx
- Low Fuel Consumption
- Precision Manufacturing
- Advanced Technology to Meet EPA Emission Regulations

GEN 2 INJECTOR BENEFITS, THE RIGHT CHOICE

- Injectors for all EPA emission standards
- Optimized for reduced smoke
- Optimized for engine emissions performance
- Engineered for industry best fuel economy
- Engineered for reduced engine start-up time
- Lower peak cylinder pressures
- Reduces overall engine operating costs
- OEM product support

Manufactured by Progress Rail whose Quality Management System is ISO 9001 :2000 and AAR M-1003 Registered.
