

# Perkins® SmartCap

An oil filler cap that tells you when to change your oil.

Perkins introduces the world's first engine level connectivity system.

Working with the free Perkins® My Engine App, you can now track your engine through this low-cost device.

The first of its kind, and only available for Perkins engines, the Perkins SmartCap will track hours worked on your machine, engine starts, and other useful information. Sign up for service notifications and never miss a service.

With no subscription fee it's the only connectivity system available for both mechanical and electronic engines. Personalise the information provided through the Perkins My Engine App to provide truly useful engine information.

Contact your distributor to order your Perkins SmartCap today.

# Perkins® My Engine App

All your engine information available wherever you are.

This is a free app available in multiple languages on Google Play and the Apple App Store to support you and your engine.

Validate a Perkins serial number and register all your Perkins engines. View engine consumables and your parts book, upcoming service intervals, and check your Perkins® Platinum Protection cover.

Link with the Perkins® SmartCap\* to give truly personalised engine information.

Download the app on Google Play and the Apple App Store now.

\*UK and international patent applications pending

Local support

## Let your engine breathe, Filter out the impurities

Filters are the first line of defence for your engine, so using genuine filters really does protect it.

Fuel and oil contamination can be disastrous. A fuel pump or a set of injectors can cost 100 times the price of a fuel filter, while an engine can cost 500 times as much as an oil filter. By choosing to fit genuine Perkins filters, you help prevent the risk of further costs like these.

Effective protection  
against contamination

## The Lifeblood of your engine

Not all engine oils are the same.

Perkins® Diesel Engine Oil is a unique blend of 12 additives, designed to keep your engine clean and reduce wear, by preventing sludge and deposits. Tested and proven in elevated condition testing, and exceeding the API standards.

The only oil recommended by Perkins.

Maintain the health  
of your engine

## A genuine alternative to new

With Perkins remanufactured parts your engine is reborn, delivering optimum performance and efficiency.

We rebuild the critical elements to the highest standards using only genuine components. Choosing Perkins remanufactured parts can also help reduce your environmental impact and save you around 30 percent on costs compared with buying new.

A whole new lifecycle  
for your engine

## Extend machine life, replace the engine

Reduce downtime caused by in-field failure and achieve identical engine performance at a fraction of the cost of a new machine.

Get a greater return on your investment with a like-for-like replacement engine, enjoy fast service and availability, and gain peace of mind with Perkins® Platinum Protection.

Drive greater value  
from your machine
