

Privacy Notice for Cat® Monitor Simulator

Last Revised:

6 February 2019

This privacy notice describes how Caterpillar collects and processes the personal information through the **Cat® Monitor Simulator app**. This notice is consistent with Caterpillar's Global Privacy Statement, which describes how Caterpillar collects, processes and shares personal data, rights that you may have under privacy laws, and other information relevant to Caterpillar's processing of personal information. Caterpillar's Global Privacy Statement is available at

What personal information does this app Cat® Monitor Simulator collect and process, and why?

Cat® Monitor Simulator app is a mobile device application that is designed to emulate a Cat in-cab monitor.

This App utilizes content stored on your device (as part of the app) that allows you to test and demonstrate different configurations of the monitor using fake demonstration data so that the monitor emulator can act as if it is connected to a Cat machine.

Cat® Monitor Simulator app is not designed or intended to collect personal information and store any information about you other than the specific settings that you use to configure the emulator which are saved locally, but not transmitted to Caterpillar.

Please note that if you select "Share Usage Information" on the next page, then information about your usage of the App will be shared with Caterpillar by utilizing Google Analytics. Caterpillar generally uses this information in a manner that does not enable us to directly identify you and uses it to understand how the App is being used and to potentially make updates to the App. More information on Google Analytics can be found at <https://marketingplatform.google.com/about/analytics/> and you can always change your preference with regard to sharing usage information by going back to this legal agreement and changing you preference regarding tracking.
