

Perkins® SmartCap

An oil filler cap that tells you when to change your oil.

Perkins introduces the world's first engine level connectivity system.

Working with the free Perkins® My Engine App, you can now track your engine through this low-cost device.

The first of its kind, and only available for Perkins engines, the Perkins SmartCap will track hours worked on your machine, starts and stops, and other useful information. Sign up for service notifications and never miss a service.

With no subscription fee it's the only connectivity system available for both mechanical and electronic engines. Personalise the information provided through the Perkins My Engine App to provide truly useful engine information.

Contact your distributor to order your Perkins SmartCap today.

Consumables

Local support

Let your engine breathe, Filter out the impurities

Filters are the first line of defence for an engine, so using genuine filters really does protect the engine.

Fuel and oil contamination can be disastrous for an engine. A fuel pump or a set of injectors can cost 100 times the price of a fuel filter, while an engine can cost 500 times as much as an oil filter. By choosing to fit genuine Perkins filters, you help prevent the risk of further costs like these.

Effective protection
against contamination

Delivering optimum power with surgical precision

Perkins turbochargers are engineered to precise specifications and fine tolerances to work in tune with your engine and ensure optimum power.

Economic buying options include remanufactured and 'new for old', both of which guarantee the same performance as new, and have the same 12 month warranty. All designed to fit your specific engine model by the same engineers who built your engine.

Complex parts,
precisely engineered

The Lifeblood of your engine

Not all engine oils are the same.

Perkins® Diesel Engine Oil is a unique blend of 12 additives, designed to keep your engine clean and reduce wear, by preventing sludge and deposits. Tested and proven in elevated condition testing, and exceeding the API standards.

The only oil recommended by Perkins.

Maintain the health
of your engine

Precise injection for critical operation

Our injectors and pumps deliver fuel to your engine with failsafe precision – so you can be totally confident in its power and performance.

Built to the highest standards by the Perkins experts who originally manufactured your engine, you can also rely on our competitive pricing and choice – with new, remanufactured or new for old options.

Power and choice
with total confidence
