

5 RISKS YOU CAN MITIGATE WITH CAT® CONNECT

Effectively managing your equipment is one way to lessen the impact of some of these day-to-day risks.

LIMITED RESOURCES

By understanding which equipment needs attention, you can better utilize the right resources, at the right time and with the right capabilities, keeping them focused on the priorities.

FAILURE TO START

Equipment alerts can provide peace of mind knowing that simple problems won't prevent your generator set from starting and picking up rated loads when you need it.

UNSCHEDULED DOWNTIME

Keeping up with preventative maintenance is the single best way to avoid major equipment failures. Also, take full advantage of electronic alerts and equipment data event logs to help spot small problems before they can cause larger issues.

PROTECT YOUR MOST VALUABLE ASSETS

Quick response times by operators can prevent major failures and reduces the risk to your business and your most valuable assets - your people

LIMITED CASH FLOW

Unplanned repairs or early equipment replacements cripple your cash flow. Good equipment management helps you maximize uptime and extend your equipment's life.

LET'S DO THE WORK.™
