

MORE THAN  
**21** MILLION  
HOURS  
OF OPERATION

## MORE POWER, LOWER COSTS

The 793F is powered by the proven C175-16 engine. This proven engine has more than 21 million hours of operation and in the 793F is capable of burning over 1 million gallons (3.8 million liters) of fuel before overhaul. The new C175 reduces fuel consumption while increasing horsepower. Engine power is adjustable to adapt to changes in production targets and to work smoothly in mixed fleets.

The engine contributes to overall lower operating and maintenance costs thanks to:

- + High displacement, low rpm rating and conservative horsepower ratings, which mean more time on the haul roads and less time in the shop.
- + The Cat Common Rail Fuel System provides optimal fuel delivery, which reduces both fuel consumption and emissions output.
- + The new Cat Enhanced Engine Oil Filtration System increases engine life, eliminates cartridge filter changes and makes it possible to extend oil change intervals.
