CAT[®] D3 RANGE

SKID STEER AND COMPACT TRACK LOADERS

The new Cat[®] D3 range builds on 20+ years of leading-edge design, incorporating **INDUSTRY-FIRST** features and **BEST-IN-CLASS** performance. The range of Cat Skid Steer and Compact Track Loaders offers owners unparalleled comfort, performance and productivity through advanced design.

- > Sealed and pressurised A/C cab provides a cool, clean and quiet operator environment **BEST IN CLASS**
- > Torsion suspension undercarriage delivers superior performance and operator comfort **BEST IN CLASS**
- > Exceptional operator visibility **BEST IN CLASS**
- > Reverse camera integrated into machine display **INDUSTRY FIRST**
- > Advanced controls, fully configurable to match operator preference **INDUSTRY FIRST**
- > Cat Intelligent Levelling system provides parallel lift when raising and lowering **INDUSTRY FIRST**
- > Enhanced safety features **BEST IN CLASS**
- > Easy to access serviceability **BEST IN CLASS**

To find out more about the new Cat D3 range, contact your local Cat dealer or visit www.cat.com/D3Range

CAT D3 RANGE ALWAYS INNOVATING

MORE COMFORT

- > The coolest cab on the market! The best-in-class sealed and pressurised cab keeps out heat, dust and noise.
- > Heated air ride suspension seat (optional) provides unparalleled operator comfort.
- > Front and rear sliding side windows, removable for easy cleaning.
- > Wide opening door allows easy access and egress.
- > Torsion axle suspension, fully independent front/back and left/right, provides a smoother ride.
- > Speed-sensitive ride control (optional) can be set to automatically activate at the operators desired speed to absorb bounce from uneven terrain.

To find out more about the range of Cat D3 range of Skid Steer and Compact Track Loaders, contact your local Cat dealer or visit cat.com/D3Range

CAT D3 RANGE ALWAYS INNOVATING

MORE TECHNOLOGY

Advanced Display (127mm LCD) allows operators to customise machine response to their performance needs by offering the ultimate in operator control, features and functionality including:

- > Operator settings for implement response, travel response, ride control activation, speed and creep control.
- > 50 programmable operator codes: recalls operators' preferred settings.
- > Display settings: language, background colour and gauge display style.
- > Security pass code system: prevents unauthorised use.
- > Service menu: displays diagnostic codes, maintenance intervals/reminders and machine parameters.
- > Integrated rear view camera with back-up lines: enhances job site visibility.

Exclusive **Cat Intelligent Levelling system** enables industry-leading features such as:

- > Dual direction electronic self-levelling.
- > Electronic snubbing: cushions loader arms when approaching lowering stops.
- > Return to dig: allows automatic lowering of lift arms.
- > Worktool positioner: allows worktool angle to be pre-set and recalled.

CAT D3 RANGE ALWAYS INNOVATING

MORE PERFORMANCE

- > High-performance powertrain provides maximum performance through the Electronic Torque Management system.
- > Two-speed travel and speed-sensitive ride control (optional) delivers a smoother ride on uneven terrain for superior comfort, higher speed operation and better material retention.
- > Electronic foot throttle allows easy adjustment of engine RPM when required. The electronic hand throttle also enables the pedal to function as a decelerator for greater control.
- > Throttle-smoothing automatically provides steady and even travel speed over rough terrain.
- > The D3 range offers rated operating capacity from 705kg to 1,620kg, a power range from 67hp to 110hp and choice of radial or vertical lift versions. Combined with a vast array of attachments, there's a D3 to suit any application.

CAT D3 RANGE ADVANTAGES

ONE-PIECE SEALED AND PRESSURISED CAB

REAR VIEW CAMERA

EASY SERVICEABILITY ACCESS

CREEP MODE

FULLY INDEPENDENT TRACK SUSPENSION

SPEED-SENSITIVE RIDE CONTROL

ADVANCED DISPLAY WITH:
Customised operator settings
50 operator codes
Passcode security
Machine diagnostics

UNMATCHED OPERATOR VISIBILITY

ELECTRONIC THROTTLE AND DECELERATION PEDAL

CONTINUOUS FLOW FOR ATTACHMENTS

CAT INTELLIGENT LEVELLING SYSTEM

RETURN TO DIG

VISIBILITY TO CUTTING EDGE

CAT D3 RANGE ALWAYS INNOVATING NEW SMART ATTACHMENTS

The latest in integrated technology innovation from Caterpillar is the development of SMART Attachments, compatible with D3 machine models. The introduction of three new SMART Attachments bring new levels of versatility and application.

The new SMART Attachments include:

- > The BH130 Backhoe attachment
- > The SMART Dozer blade
- > The GB120 and GB140 SMART Grader Blade

What makes Cat SMART Attachments SMART?

- > Industry-first plug and play attachment recognition by the machine
- > Existing machine joysticks intuitively control all SMART Attachment functions
- > Adjust attachment settings and controls with the machine's advanced display
- > Easy interchange between D3 models without the need for specialised installation
- > Machine "Assist" function integrates with dozer and grader blade, enabling programmable slope control

SMART Grader Blade can be configured with 2D or 3D blade control.

BH130 Backhoe

GB120 Grader

Great finance rates are available on Cat attachments when you bundle with a machine purchase. Plus, save even more when you include a second or third attachment with your machine.

CAT D3 RANGE SUPPORT & SOLUTIONS

DEALER CAPABILITIES

When you buy Caterpillar, you aren't just buying a piece of equipment, you're partnering with the industry's best, most extensive and always-on dealer network. Your Cat dealer will be there for you for the life of your equipment, bringing you the tools, technologies, service and know-how to keep your machine productive.

CAT FINANCIAL

Cat Financial provides the best rates and solutions for your business. Cat Financial offers higher approval rates, flexible down payments and flexible terms to provide higher customer satisfaction. No additional security is required when financing a new Cat machine. CFAL is dedicated to helping Cat customers through good times and bad.

CUSTOMER VALUE AGREEMENTS

Customer Value Agreements offer tailored support plans delivered by your Cat dealer that provide hassle-free ownership, combined with the security of having expert dealer technicians monitor your machine's performance and health.

Whether it's having maintenance kits delivered for your own installation or a full-service equipment protection plan, your Cat dealer has a range of care plans available to ensure your valuable asset is kept in top working order.
