

AN EXCLUSIVE TRAIN-THE-TRAINER OPPORTUNITY

Hosted by Caterpillar Safety Services

Caterpillar Safety Services is offering an exclusive opportunity for your trainers to learn how to facilitate Caterpillar Safety Services' Supervisor Training in Accountability & Recognition Techniques (S.T.A.R.T.™) workshop. The Train-the-Trainer format will teach participants how to confidently and effectively facilitate these workshops within their own organizations.

Supervisor Training in Accountability and Recognition Techniques (S.T.A.R.T.) Train-the-Trainer Workshop

The S.T.A.R.T. Train-the-Trainer workshop is intended to teach skilled trainers how to deliver training content from the S.T.A.R.T. workshop; topics include but are not limited to the importance of safety accountability, multi-causation of incidents, recognition and motivation, and how supervisors can shape a safety culture that prevents incidents. Training will include review of the S.T.A.R.T. content, highlight key training concepts, and provide the opportunity for each trainer to present/facilitate a portion of the content and then receive feedback from their peers and the facilitating consultant.
