

CAT® CUSTOMER VALUE AGREEMENT (CVA) FOR MINING

CAT POWERTRAIN GUARANTEE CVAS

From quarry and aggregate operations to mine sites around the world, Cat® large wheel loaders and off-highway trucks have reliably kept material on the move for decades. By adding a Powertrain Guarantee Customer Value Agreement (CVA) to the purchase of new equipment or your current fleet, you don't just hope for a target component life — it's guaranteed. Ready to maximize uptime and lock in a lower total cost of ownership?

LONGER LIFE. MORE UPTIME. LOWER TOTAL COSTS. THAT'S A CVA.

TWO LEVELS OF POWERTRAIN COVERAGE

A Powertrain Guarantee CVA for Cat large wheel loaders and off-highway trucks offers valuable protection after the standard machine warranty expires.

- **Prorated coverage** for all powertrain components — including engine, transmission and final drives.
- **Non-prorated coverage** for all powertrain components.

Component life guaranteed to planned replacement.

Covers dealer labor for all component repairs or replacement included with all levels.

Options for replacement or repair and do-it-yourself service or trained dealer labor to fit your needs and budgets.

Get the right components and parts when you need them through dealer tracking and planning.

Condition Monitoring services ensure accurate and timely component repairs or replacement to help maximize uptime.

Portable and transferable. Guarantee stays with the machine, even if the machine moves to a different dealer territory or is sold to another party.*

Tailored to your needs. Your CVA is customized for your operation. You get the right parts for planned maintenance, with options for do-it-yourself service or trained dealer labor.

*Subject to availability.

Enrollment in a CVA as customized by your dealer using genuine Cat parts.

Follow Operations and Maintenance Manual guidelines.

Perform Fluids Analysis per dealer recommendations.

Conduct Quarterly Condition Monitoring Inspections. See dealer for details.

CAT POWERTRAIN GUARANTEE CVA BENEFITS

Maximum Uptime

- Dealer tracking and planning ensures you get the right components and component parts when and where you need them.
- Options for replacement or repair.
- Assures reliable and hassle-free ownership for multiple years.

Up to 25% Increase in Expected Component Life

- Timely maintenance using Cat filters helps you achieve targeted component life.
- Condition Monitoring services with alerts and advice help to prevent costly unplanned downtime and enable repairs before failure.

Lower Cost of Ownership

- Proper powertrain maintenance delivers the lowest cost per hour.
- Predictable costs and reduced risk of major failures.
- Optimal fit and performance with genuine Cat parts.
- Can be combined with other dealer agreements.
- Increased asset value at sale or trade-in.
