

CAT[®] EMCP 4.2B AND EMCP 4.4 SEISMIC-RATED RETROFIT BOX KITS

POWER UP WITH THE LATEST TECHNOLOGY

Looking to optimize your existing Cat[®] generator set? The Cat Electronic Modular Control Panel (EMCP) 4.2B and EMCP 4.4 seismic-rated retrofit box kits offer expanded capabilities with cutting-edge hardware and software technology.

WHY UPGRADE?

The EMCP 4.2B/4.4 control offers more features and communication options than earlier EMCP models. And with a seismic-certified enclosure designed to meet California's requirements, you can feel confident that your power equipment is ready to work in even the toughest conditions.

The EMCP 4.2B and EMCP 4.4 upgrades expand older genset control panel functionality to deliver:

- Less unplanned downtime
- Improved usability
- Peace of mind
- Expanded options
- Compliance with seismic requirements
- Enhanced safety

Seismic Certification Label

EMCP 4 CONTROLLER

Product Type: Control panel
Supports/Attachments: Rigid Wall Mount
OSHDP OSP: OSHDP OSP-0412-10

Certification Parameters:

$S_{DS} \leq 3.20g, 2.00g ; z/h \leq 0.0, 1.0 ; I_p \leq 1.5$

See Certificate of Compliance for additional restrictions

THE RETROFIT BENEFIT

Innovation doesn't stop once your generator is up and running. Caterpillar is committed to making your investment go further by continuing to research and develop technologies that extend the life and improve the performance of Cat gensets. Retrofitting your equipment with these technologies:

- Provides access to new features that weren't available when you purchased, rented, or leased your Cat generator set
- Delivers the latest updates to improve your power system's performance
- Enhances reliability and durability and extends the life of your generator set

EMCP 4.2B and EMCP 4.4 seismic-rated retrofit box kits with a seismic-certified enclosure are designed to meet California seismic certification.

SUPPORT FROM THE EXPERTS

You rely on your Cat power system to perform when and where you need it. The world-class Cat dealer network of highly trained experts keeps your entire fleet up and running to maximize your equipment investment.

Contact your local Cat dealer to learn more about retrofitting your equipment with the latest upgrades at www.cat.com/dealer-locator.
