

ELPHINSTONE

HAULMAX TRUCKS

Overview

Elphinstone have delivered almost 100 Haulmax trucks via the global Cat® dealer network to customers in Australia, New Zealand, Canada, Africa and South America where they are providing solutions as extended distance haul trucks, service trucks, low bed tow tractors, water trucks, and wet weather / downhill haulers.

CATERPILLAR OEM SOLUTIONS

3900 SERIES OFF-HIGHWAY HAUL TRUCK

The 3900 series off-highway haul trucks are manufactured around a complete Cat powertrain. 95% of the serviceable parts used are Cat parts, taking full advantage of the combined product support capabilities of a local team and Cat dealer technicians around the world.

These trucks are built for heavy duty haulage over extended distances and specifically designed for off-highway haul roads.

The Haulmax 3900 series off-highway haul trucks are ideal in soft underfoot conditions where superior braking capacity, surefootedness and ground pressure is critical. They offer excellent retardation by dual rear drive axles and eight wheels, delivering greater traction and performance safety.

The 3900 series is offered in three configurations: an 80 tonne dump truck, a 150 tonne capacity low bed or road float, or a bare chassis unit used for a service or water tank module.

CAT® DERIVATIVE CONTENT:

- 775: engine, cooling system, transmission, torque converter
- 772: wheels, brakes, final drive, differential, front and rear suspensions
