

**For Release in India:** 11 July 2023

**Release Number:**

### **Caterpillar India Pvt. Ltd. announces a supply agreement with Pi Green Innovations**

Caterpillar India Private Limited has reached an agreement with Pi Green Innovations Private Limited to distribute the Carbon Cutter through India's Cat® dealers, Gmmco Limited and Gainwell Commosales Private Limited. The association aims to enhance environmental sustainability by promoting the adoption of Retrofit Emission Control Devices (RECD) for Diesel gensets.

The Carbon Cutter is a revolutionary RECD that reduces Particulate Matter (PM2.5 and PM10) emissions from diesel gensets. The use of ARAI-certified RECD will enable Caterpillar customers to make their existing fleet of Cat gensets compliant with the latest National Green Tribunal's Order.

The RECD is based on a patented filter-less technology that negates issues like clogging and manual cleaning. As a result, there is no need to replace a filter; therefore, it is low maintenance.

The association between Pi Green Innovations and Caterpillar India signifies a shared commitment to environmental stewardship and a sustainable future. By leveraging Caterpillar's extensive suite of products, dealer network, service & repair capabilities, Customer Value Agreements (Cat® CVA) and reputation for excellence, this collaboration will provide an opportunity for widespread adoption of the Carbon Cutter across Caterpillar's customer base, ensuring cleaner operations.

For more information or to purchase, contact your local Cat dealer.
