CAT® ENERGY CONTROL SYSTEM 100 (ECS 100)

SMARTER CONTROL STARTS WITH AN UPGRADE

CLEAR, REAL-TIME DATA AT YOUR FINGERTIPS

- Stay in control with intuitive touchscreen access to alarms, events, and system performance.
- Detect problems early with real-time alerts to minimize disruptions and costly downtime.
- Connect via Ethernet, HMI, or Product Link™ for streamlined monitoring.

REMOTE ACCESS FOR TOTAL CONTROL

- Monitor and manage your genset from anywhere with enhanced flexibility, safety, and visibility.
- Adjust settings, schedule operations, and respond to alerts no matter where you are.
- 3-tier programmable access helps prevent unauthorized changes and keeps your system secure.

STANDARDIZED FOR SIMPLICITY

- Easily integrate across genset models and upgrade to ECS 200 through 400 with universal compatibility, without needing full controller replacements.
- Simplify service and diagnostics with standardized components on one system.
