## Bracelet Size Guide

### For Women's Bracelets and Cuffs:

1. Using a flexible measuring tape\*, measure the circumference of your wrist just above the wrist bone (toward the elbow).
2. Make a note of the number at the point where the measuring tape meets the 0.
3. Compare your measurement to the chart below, and choose the corresponding bracelet size. If your bracelet or cuff appears to be between two sizes, we suggest you choose the larger size.

2. Compare your measurement to the chart below, and choose the closest bangle size.

| Width of fist                        | Bangle Size |

| 2 <sup>1</sup> / <sub>4</sub> inches | Small       |
