THE TRISCAPE COLLECTION

THE TRISCAPE COLLECTION

HBF introduces Triscape, a casual seating collection with fluid lines and an elemental form inspired by natural growth patterns. Designed by Todd Bracher, Triscape is available as a bench with a small work surface or, alternatively, as a larger worksurface with a seat pad, offering unlimited configurations in an open work setting.

With the ability to mix and match benches, together with the Triscape Pouf, this versatile collection creates a custom environment precisely fitted to the space, the needs of users and a variety of work tasks. Triscape is eminently suited to free-form collaborative work spaces, as well as casual public and reception areas.

A unique soft-form triangular top rests on a lightly scaled metal frame and allows for a range of materials, finishes and upholstery treatments. Triscape can be specified as a fully upholstered seat, a table/work surface or in various combinations of upholstery and work surface.
