Access codes will change from yellow to black when changes have been completed.

⚠️ **Important Information About Access Codes**

- Always test each new Access Code after creating it to make sure it works.

- For security reasons, the first 4 digits of each Access Code must be unique. For example, you are unable to program an Access Code **1-2-3-4-5**, as well as an Access Code **1-2-3-4-6**.

- A total of 250 Access Codes can be programmed.
