## LEGO® NINJAGO® HISTORY

LEGO® NINJAGO® City is an ancient place, situated on the coast of NINJAGO Island. A sprawling metropolis, lack of real estate eventually led to the city being built vertically instead of spreading out horizontally. As a result, the city consists of layers constructed on top of each other. It is possible to trace the history of the city simply by working your way up from the lowest level. The city is broken up into three levels, known as the Old World, the Street and the High-rise.

The city truly has something for everyone. Restaurants and shops of every sort can be found somewhere in the metropolis. People from all over the island aspire to live and work in NINJAGO City, and the mix of residents brings a wonderful combination of cultures to the place. From the lowest level to the top of the top, NINJAGO City is a colorful and constantly entertaining place to live or visit.

Although the neighborhoods of NINJAGO City are very different from each other, people move freely between them to buy goods and do business. And, of course, the ninja team is always around to protect the citizens from evil.

What new adventures are waiting in NINJAGO City? You can make up your own stories or recreate what you see in THE LEGO NINJAGO MOVIE™. You decide!

## LEVEL 1 - THE OLD WORLD

### KAI

Kai's days off are packed with activities – ninja training, cooking, eating and trying to organize a Red Ninja fan club. Sometimes he has to be reminded to go to school!

### JAMANAKAI VILLAGER

This aged man wanders around the lower level of the city, swapping frogs he has raised for trinkets. Very little of what he says makes any sense, but people listen anyway because they want the frogs.

### SALLY

Smart and quick, she's great at swapping stuff for other things she needs. She drives a hard bargain and knows just how much a frog is worth.

### IVY WALKER

A busy working mom, Ivy rarely has any time to herself. Her most prized possession is a huge diamond, which she spends a great deal of time polishing. Just how she got it, no one knows.

### SWEET

This maintenance robot travels the city, picking up trash and sweeping the streets clean. When it is not on duty, it sometimes starts cleaning people and places on its own, usually without asking first.

### KONRAD

Konrad is known for being great at catching crabs and fish. He is also highly skilled at napping, which he says is more of a science than an art. It is said that Konrad can fall asleep anywhere within five seconds.
