

MyRide® Buckle Replacement Guide

©2013 Graco PD245610A 5/13

To Remove Existing Harness Tongues and Buckle and Attach Replacement Buckle

1

To loosen straps, lift lever and pull harness straps.

2 Remove harness strap loops from splitter plate.

3

Pull harness straps through seat back and seat pad.

4

Remove chest clip. **DO NOT DISCARD** the chest clip.

5

Unbuckle harness by tilting top of buckle down, press top of red button, and pull tongues out of buckle.

6

Remove and discard tongues.

7

Slide **NEW** buckle onto harness straps. **MAKE** sure not to twist straps.

8

Re-attach chest clip. **MAKE** sure not to twist straps.

9

Re-insert straps through slots in seat pad and seat back. See carseat owner's manual for inserting the straps into the correct set of harness slots for your child.

10

Insert harness straps behind harness cover plate.

11

Re-insert straps back onto splitter plate. See carseat owner's manual for inserting the splitter plate into the correct set of loops for your child.

Turn page over to finish the rest of the assembly Steps 12 to 20 for the buckle replacement.

12

Unfasten the 4 clips at the front of the seat pad. Pull pad up then pull buckle through crotch slot.

13

Reach under seat to the metal retainer. Push the retainer up through bottom of seat and remove buckle and discard.

14

Push button and remove tongues from the NEW buckle.

15

Insert metal retainer from NEW buckle into crotch slot in the seat bottom as shown.

16

Re-insert buckle through the slot in seat pad.

17

Pull up on buckle to be sure it is secured in the slot.

18

Wrap seat pad around edge of seat. Re-attach 4 button clips to front of seat.

19

Insert NEW tongues into buckle.

CLICK!

20

FINAL CHECK :

- Tug on the buckle to be sure it is properly secured in the bottom of the seat and does not come out.
- **MAKE SURE** the harness straps are not twisted.
- Make sure the chest clip is properly threaded as shown in Step 8.
