

Tritan™ Carafe

7M49

The Carafe's design is not only chic, beautiful and stylish but also provides a comfortable grip for easy pouring. Made with Tritan™ material, the Carafe is durable and resists stains and odors. The leak-proof lid is ideal for shaking or mixing beverages. Graduation marks clearly show the level of beverage in the container, and a dual pouring sprout has a free flowing and ice guard openings.

Care, Use & Safety

To keep your new Carafe looking its best, we recommend the following:

- Remove label and wash before use.
- Do not use abrasive cleansers or scrubbers since they may dull the finish.
- This item is made of materials that are safe for normal household dishwashers. Be sure that the item does not come in contact with the dishwasher element to avoid melting.
- Do not use utensils with sharp edges (i.e. knives) in the container, as they could scratch or scuff the container surface.
- Dairy, juice, or other liquids that spoil easily should not be kept in product for prolonged periods. Juice may start to ferment in as little as a day.
- Not intended for use in the freezer or microwave.
- CAUTION: Not intended for use with hot liquids or carbonated beverages. Hot liquids may cause the sides of the bottle to get very hot to the touch, and any pressure build-up in the container could cause the lid to pop open unexpectedly, leading to injury or spills.
