

5J81 Lid Assembly Instructions

STEP #1

Hold lid horizontal to the ground with the top of the lid facing the ground. Align hole in lid with hinge point near the handle of the base. Align one side, and then do the other side.

STEP #2

Once both sides are aligned, push lid onto the hinge points. Lid should then be connected to the base.

STEP #3

Pull lid outward and upward to close lid. If lid does not close all the way, the lid could be on upside down. Remove lid and start with step 1.
